REA 2026 X-Year TAFS

Funds in this TAFS originate from past Secretary's transfers and a $300 million transfer from the Nonrecurring Expense Fund authorized in the Further Continuing and Security Assistance Appropriations Act, 2017 (P.L. 114-254). It also includes reimbursables from Department of State.

- UAC: Based on current projections, ORR does not anticipate exhausting other available UAC funds, and so will not need to tap into the X-year funds.
- Refugees:
    - *Operation Allies Welcome (OAW)*: X-year funds are from reimbursable agreements with the Department of State for OAW, and ORR is working to close out some projects and returning the funding to State.
    - *South Africa*: There is an agreement with State on funding the current ongoing deployment to South Africa.
